

VLITEX E-Bike fire blanket

Order number: VB-01048

E-bike batteries pose a certain fire risk, especially during the charging process.

The VLITEX e-bike fire protection blanket offers safety, because even if the battery is permanently installed, the environment can be protected in the event of a fire. The VLITEX E-Bike fire protection blanket is placed over the bike and the damage remains as small as possible.

- Fire can burn under the blanket in a controlled way
- Heat and smoke are reduced
- Temperature resistant up to 1.000°C (short term)

Material: silicone-coated fiberglass fabric

Dimensions: 250 x 300 cm
