

Photoelectric Smoke Alarms EI650i, including permanently installed 10-year battery

Order number: VB-02118

The Ei650i is a smoke alarm with a fixed 3V lithium battery. A stand-alone device with AudioLINK function, 5 years manufacturer warranty and 10 years lifetime.

- AudioLINK function for reading out detector data
- Diagnostic function: fault prognosis regarding battery voltage and degree of smoke chamber contamination
- Comfort identification: quick location of signaling detectors
- Event memory: memory function for past alarm events
- Large test/mute button (operation without ladder from ground)
- Advanced mute function: manual alarm suppression + 12h signal suppression in case of low battery voltage
- Suitable for bedroom (no disturbing LED flashing)
- Reduced test volume (slowly increasing alarm volume in test mode)
- Pollution compensation (automatic adjustment of sensitivity in case of polluted smoke chamber)
- False alarm protection
- Removal protection (optional removal lock protects against unauthorized removal)
