

Haix Black Eagle Safety 56 LL MID, S3 safety shoes

Order number: WW-01497

Your full leather boot Black Eagle Safety 56 LL. Comfortable and with all-round protection.

Upper material

Microfiber/Textile combination

Inner lining

Breathable inner lining

Sole

Extremely high slip resistance combined with low wear due to special rubber and innovative sole construction. Sipes, special beveled and round sole elements provide optimal grip as well as high agility and stable hold on slippery and wet surfaces. The PU cushioning wedge with its low weight provides excellent running characteristics. Very good insulation against cold, fuel resistant. According to EN ISO 20345:2011

Insole

Comfortable, cushioning and moisture wicking. Separate heel cup provides good foot guidance. "AIRFLOW" channels. "Perfect-Fit" marking for optimal verification of correct shoe size.

Durable Sole

Rubber compound for long life

Anti Slip

Very good grip on different terrains due to the tread design and the special rubber used

ESD

Electrostatic dissipative shoes tested according to DIN EN 61340-4-3:2016 and DIN EN ISO 61340-5 1:2016.

HAIX Absorption

Cushioning with cushioning wedge incorporated into the sole

HAIX Smart Lacing

Smooth and pressure-free adjustment of the shoe to the foot

**HAIX Nano-Carbon protective toe cap**

Anatomically shaped, ultra-light protective cap made of fiber-reinforced nano-carbon for the highest safety requirements

HAIX Vario Wide Fit System

With 3 different insoles, the shoe can be individually adjusted in width. The medium insole (EB-09270) is delivered with the shoe. The insoles wide (EB-09260) and narrow (EB-09250) must be ordered separately

Other

Light weight, pull-on loop, antistatic and metal-free
