

WRS Connector Paddle

Overview

The only paddle designed for rescue use with Sleds, this innovative product offers 3 easy to use products in 1.

Easy Use Kayak Paddle - The paddle features zero feather, reducing the users requirement to learn the art of wrist rotation during a paddle stroke. Both High Density Blades are flat so the paddle can be used any which way, "Easyuse"

Wade and Short Reach - Remove the blades and connect the T-Grip and Wading foot attachment to covert to a wade pole. The Aluminium with plastic sheath gives the shaft grip and protection in cold conditions.

Extended Reach - With the use of the Extension Spigot, it is possible to join multiple shafts to each other. with a recommended maximum extension of 3 shafts to achieve 15ft (4.5m) reach.
